A Galaxy of Stars

Do you ever sit on a hill at night
To watch the starscape shine?
A galaxy of twinkling islands
Decorates the sky.

Some stars burn bright in solo spots
Like diamond dots on velvet.
Some gather and gleam behind the scene-
The sky's own tinsel blanket.

Alone and bold; in glittering groups;
A thousand trillion clusters;
The cosmos has all kinds of stars,
Each adding to the luster.

Would a star wish to shine
The way another glows?
Could it be he doesn't see
A sparkle of his own?

In the universe of galaxies
Expanding throughout time,
There are no stars who don't give light;
There are lots of ways to shine.©

FORSYTH GRADE SCHOOL

Forsyth, Illinois
1993 - 1994

Principal's Message:

As I pause and reflect on this '93 - '94 school year, I am reminded of many good memories. It has been my pleasure to have watched each student grow in his/her pursuit of academic excellence, music and art expression, athletic participation, and especially in the development of self-concept and character. Thanks to an outstanding staff, a most supportive group of parents, and to a super group of students for a great year. Let's build on the successes of this school year to have an even brighter tomorrow.
